## SKILLS

- JavaScript
- TypeScript
- HTML
- CSS/SASS
- React.js
- Java
- GIT
- SQL
- Node.js
- Azure

## EDUCATION

### CURRENT

#### **BSC IN COMPUTING**, NATIONAL COLLEGE OF IRELAND (NCI)

I am currently working towards a bachelor's degree in Computing at the National College of Ireland.

### 2020 - 2021

#### **SOFTWARE DEVELOPMENT**, BLACKROCK FURTHER EDUCATION INSTITUTE (BFEI)

I graduated from BFEI's Software Development course with distinctions in Software Architecture, Fundamentals of Object-Oriented Programming, Web Development, Databases and Mobile Technologies modules.

### JULY 2019

#### **LEAVING CERT**, VIRGINIA COLLEGE

Graduated from Virginia College in 2019 after completing my Leaving Cert.

## PERSONAL PROJECTS

### **WEATHER APPLICATION**

I created a weather application where the user can get weather information from around the world with a simple search. The public weather **API** created by the company OpenWeather was used to access global weather information and I graphed this information with the JavaScript library **Chart.js**. The web application's clean user interface, made with **React.js** and styled with **SASS**, makes a pleasant user experience.

(Portfolio linked above.)

## TASK MANAGEMENT APPLICATION

I made a task management application with **React.js** and styled it with **SASS** and took advantage of the browser's local storage to save user data. This app uses minimal style and animations to achieve a simple, sleek design.

(Portfolio linked above.)

## PORTFOLIO WEBSITE

I created my portfolio website using **React.js**, **TypeScript**, **SASS** and hosted it on my own **custom domain**. It displays my previous work and the current technologies I use.

(Portfolio linked above.)

## EXPERIENCE

OCT 2021 – JULY 2022

**DUNNES STORES**, DELI ASSISTANT

Working part time in Dunnes Stores as a deli assistant.

OCT 2019 - FEB 2020

**NATIONAL RESPONSE CENTER REPRESENTATIVE**, THYSSENKRUPP SYDNEY AUSTRALIA

Thyssenkrupp is a German multinational conglomerate specializing in the production and maintenance of elevators. In this role I dealt with organizing technicians to attend to trapped passengers and managed logging calls for maintenance and general inquiries for customers and clients along with communicating this information to the technicians.

JUNE 2017 TO DEC 2018

**SHOP ASSISTANT**, MR. PRICE. (CAVAN)

In this role I was responsible for working with customers every day to help them around the store and find what they need. I also stocked shelves and kept the store clean and tidy.
